Closure of Former IPMG Print Facility at Noble Park, Melbourne

PMP Limited (PMP) on 27 February 2017, as part of announcing its half year results, confirmed it was on track to extract synergy benefits that result from the merger of IPMG with the PMP.

As part of the company's plan to achieve the synergy benefits, the former IPMG print facility at Noble Park in Melbourne will close today. While the closure will result in 100 redundancies, the company is working to ensure a number of the Noble Park staff can be redeployed to the Clayton site in Melbourne.

PMP continues to work constructively with the AMWU throughout the process.

PMP also continues to make good progress with the consolidation of the NSW and QLD operations.
